
RUCKSACK RIESLING

THE EVER-EVOLVING JOURNEY

WRITTEN BY KARISSA RAMSEY

The word "Rucksack" is a German word meaning "backpack"; an ode to Hessenland's ever-evolving journey! This wine pays homage to the formative influence and wanderlust adventures, both at home and abroad. In a way, "Rucksack" speaks to our goals at Hessenland to keep evolving and push the envelope so we're able to keep bringing our guests new and exciting experiences, while still keeping a hold on our traditional roots!

Our "Rucksack" Riesling is sweet yet holds a hint of spicy with aromas of lemons, green apples, fresh cut wild flowers, and hints of wet stone. The fresh green apple combined with the lemon, lime, and grapefruit citrus create a beautiful balance with the grapes' acidity.

THE COACH HOUSE

Riesling is a very aromatic grape variety that is known for its flowery aromas and high acidities. The grape is well-versed in making dry, semi-sweet, sweet, and sparkling white wines. This grape originates from the Rhine region of Germany; which, is actually a region that Frank had the pleasure of exploring during his adventures abroad!

Our "Rucksack" Riesling pairs very well with spicy foods, charcuterie boards, or soft cheeses, and if you're planning on making a visit to Hessenland any time soon, you'll find one of each of those offerings on our menu, waiting patiently for you to pair your very own glass of "Rucksack" Riesling with!
